CarbonTrack / Draft carbon summary

Sample Company (fictional)

Reporting year: 2025 | Country: DE

This activity-based estimate is for review and information sharing. It does not certify CSRD or voluntary-standard compliance or provide independent assurance.

Recorded inventory

Scope	Emissions (tonnes CO2e)
Scope 1	0.3680
Scope 2	0.3312
Scope 3	0.2040
Total assigned inventory	0.9032

Source records: 3. Records without a scope: 0. Records missing source references: 0.

Avoided emissions: 0.00 kg CO2e, shown separately and not deducted from the inventory.

Coverage and review

Recorded: Source references recorded

Needs review: Emission factors independently verified

Figures cover the records entered for this year. Missing business activities are not estimated automatically. Zero recorded emissions do not establish a zero footprint.

Calculation register

legacy-v1 / eu_average: CarbonTrack legacy estimates; source and year require verification
